

International work placement

Information

Welcome to heroal

heroal, one of the leading aluminium system specialists, develops and produces systems that are matched to each other for windows and doors, facades, roller shutters, roller doors and sun protection. heroal systems are setting standards in innovation and quality.

The heroal portfolio stands for engineering work „Made in Germany“ with top system characteristics and is systematically oriented to customer requirements - from the development at highly specialized production locations through to it´s application.

The guiding principle of the company is the systematic linkage of cost efficiency and ecology in all areas of business. The company uses recycled aluminium as well as renewable resources in the „green“ insulation strips. heroal operates a combined heat and power plant and meets high standards in its fleet of vehicles. The system-solutions ensure efficiency from the planning stage, through production and all the way to use in buildings.

A medium-sized company with a long tradition, heroal is the employer for 800 employees.

heroal at a glance

Who we are

heroal is one of the top manufacturers of aluminum systems for roller shutters, roller doors, sun protection, windows, doors and facades.

What we produce

heroal´s products are exclusively „Made in Germany“. The systems are certified and are perfectly matched to one another visually and functionally.

Our team

heroal currently employs more than 800 qualified and dedicated employees throughout the world.

What you can expect

By working on varied tasks involving real responsibility, you can find out what it is like to work at an innovative family company.

During a work placement lasting 3 months, you will gain an insight into a company full of variety, adventure and unforgettable moments. Discover a new range of tasks, enjoy a varied working day and get to know lots of new people.

Work placement content

We offer an interesting and exciting insight into the tasks performed by a product developer, product manager or tool mechanic. By taking part in our premium training programme you will be involved in exciting projects, and will also be responsible for sub-projects within these.

Accommodation

You will live with other international trainees and quickly make new friends. The residence is located directly opposite the company building and has good transport links. The cost of rent is covered by heroal.

Getting to and from heroal

Travel costs from the airport in your homeland to our site in Verl will also be covered by heroal.

Support

A committed mentor will be available to you throughout the work placement, and will also be involved with you in activities outside of work, for example sport and leisure activities. It is not uncommon for new friendships to be made here, which may even last a lifetime.

Remuneration

You will receive attractive remuneration for your work and commitment during the work placement.

Advantages of your work placement at heroal

- You will enjoy a varied work placement with exciting tasks and subject areas, and will broaden your work experience
- You will have an excellent reference for the future
- You will increase your wealth of intercultural experience
- You will improve your language skills
- You will become a cultural expert on your host country
- You will meet a range of new people and form new friendships
- You will gain skills that are becoming increasingly important nowadays, for both your private and professional life

Plus many other advantages which you will soon discover for yourself! You will be surprised at what you are capable of.
